

# BL 720 ULTIMATE

according to DIN 13277

### **Equipment**

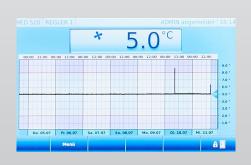

- Forced-air cooling
- 5 aluminium drawers
- Automatic defrosting
- Equipped with castors
- Condensate evaporation
- Potential-free contact
- Comfortable access
- Antifreeze
- Minimum/maximum temperature memory
- Visual and audible alarm signal, even in the case of power failure

### **ULTIMATE-Features**

- Touch display, capacitive, elegant glass design
- Graphic display of the temperature curve with logbook function
- Access control via password entry or RFID possible
- PC-KIT-NET for temperature documentation and monitoring via LAN

- PRO-ACTIVE- Control: Permanent, proactive monitoring of the performance data and alerts in the case of deviations. World's most accurate temperature control in refrigerated areas thanks to two standard PT-1000 sensors
- Touch Display, elegant glass design, capacitive.
- Access control with protocol.
- Graphical display of the temperature curve and min/max temperature.
- External housing made from galvanised sheet steel (rustproof), with white, anti-scratch powder coating. Length of the plug cable: approx. 3 m.
- Equipped with castors.
- Interior made from smooth aluminium with colourless protective coating. Gibs (every 15 mm) for flexible interior arrangement.
- Interior can be customised (surcharge may apply). See optional equipment.
- Extra-thick insulation, made from high-quality, compression-moulded and environmentally friendly material.
  Energy saving.
- Self-closing door with easy-to-replace plastic magnetic seal frame, lockable.
- Door stop on the right-hand side (by default, see illustration), or the left-hand side, can be retrofitted.

- Forced-air cooling, with axial blower, switches off automatically when you open the door, ensures a uniform temperature and minimizes temperature deviations.
- Automatic fast defrosting thanks to time-limited and temperature-monitored reversal of the refrigerant circuit.
- Condensate evaporation in stainless steel heated dish beneath the refrigerator floor.
- Electronic temperature control, tamper-proof by RFID/password with digital display and temperature memory.
- Power failure alarm (visual and audible alarm), the monitoring unit remains in operation for approx. 30 hours on battery power.
- Warning functions with visual and audible alarm signal in in the case of temperature deviations or other malfunctions. Door open alarm after 60 seconds.
- Alarms can be forwarded via email or SMS using the Kirsch EVOLUTION CLOUD Module (optional).
- Digital data documentation readable via PC-KIT-NET or USB interface and software KIRSCH Datanet.
- Antifreeze against sub-zero temperatures.
- Ventilation-enforced refrigerating machine, vibration free, hermetically sealed, energy saving, low-noise, easy to service.
- Low-noise compressor reduces noise.

### Specification

Capacity	700 litres
Temperature setting	+4 °C
Voltage	220 – 240 V, 50/60 Hz
Power consumption	60 watts
Normal consumption	0.81 kWh/24 h
Admissible ambient temperature	from +10 °C to +38 °C
Heat emission (max.)	554 watts
Exterior dimensions (including door handle and distance from wall)	w x d x h = 77 x 98 x 195.5 cm
Usable dimensions	w x d x h = 56 x 60,5 x 129 cm
Exterior dimensions with door open at 90°	w x d = 83 x 166 cm
Drawer inner dimensions	w x d x h = 56 x 60.5 x 10 cm
Max. load drawer	50 kg
Weight (net/gross)	164 kg/190 kg
Temperature deviation	+/-0.75 °C
Noise emission	47,7 dB(A)

### Optional equipment

KIRSCH refrigerators and freezers offer numerous equipment options that can be retrofitted.

#### Glass door with lock

Transparency: avoid opening the door unnecessarily to inspect the contents. Lockable.

#### **Additional Shelves**

Wire shelves, robust with load capacity up to 40 and 50 kg.

#### **Door coupling**

Connects the furniture door to the device.

#### Interior lighting, side wall

Optional, optimal and energyefficient lighting for the interior using an LED lightstrip.

#### **Decorative frame**

Made of stainless steel, allows to cover door with a decorative panel (thickness max. 2 mm).

#### **Condensation tray**

For manual draining of condesation water.

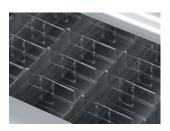

#### **Access Port**

Simple insertion of an external temperature sensor with integrated cable feed-through.

#### Levelling feet

Levelling feet instead of castors.

Additional length and cross dividers

For the optimum organisation of your refrigerated goods.

#### Drawers on runners

Up to eight drawers are possible in total.

### **Blood Bank Refrigerator BL 720 ULTIMATE**

Medical device according to Regulation (EU) 2017/745 (MDR)

**Vario Support** 

Storage shelf on roller runners.

### Accessories for temperature documentation

## External PT100/PT1000 with cold block

Additional temperature sensor for connection to existing/external monitoring system.

#### KIRSCH EVOLUTION CLOUD-Module

Maximum storage safety through optimal connectivity and real-time monitoring. \*
